

SCHOOL OF INFORMATION TECHNOLOGY

Instructional Material (Laboratory)

Human-Computer Interaction
(HUMCOM1)

Topic(s):	Laboratory	Introduction to HTML, Navigation, and Image Formatting			
Activity No.	05		No. of Hours:	30 minutes	
Start Date:	FEBRUARY 20, 2026		Due Date:	FEBRUARY 20, 2026	
Approach:	☒	Individual	☐	Group	
	☒	Online	☐	Onsite	☒ Hybrid
Name(s): <i>Lastname, FirstName Arranged in alphabetical order</i>	Agoo, Christian Payapaya				

I. Prerequisites

Studentssshould have:

- a. Knowledge of the Anchor (<a>) tag and the href attribute.
- b. Understanding of file paths for internal site navigation.
- c. Basicunderstanding of CSS for image rounding and layout centering.

II. Learning Objective

At the end of this laboratory activity, the student must have created a functional, well-structured HTML webpage titled "Student's Lastname Name Creatives". The output must demonstrate the student's ability to use navigation bars, formatted circular images, and centered layout designs.

Learning Objectives	Aligned Course Learning Outcomes (CLOs)
1. Construct a functional navigation bar (Home, About, Gallery, Contact).	CLO 3
2. Implement perfectly rounded images with borders.	CLO 3
3. Create a visually balanced landing page with a Call-to-Action button.	CLO 3

III. Setup and Procedure

Mandatory

Software Environment:

- Visual StudioCode,Notepad++, or Notepad

Hardware Environment

- PC/workstation

IV. Problem/Procedure

Annex A for the problem description.

Annex B for the detailed procedure.

v. Additional Instructions

- a. **Filename (HTML):** You must follow the naming convention.
- b. **Template Requirement:** Do not forget to use the provided template to include your activity output/screenshot,the source code, and your reflection.
- c. **Submission Method:** Submit the final .html file to the designated laboratory drive or as specificallyinstructed by your faculty.

VI. Rubric/Scoring Guide

Criteria	5 Points (Excellent)	3 Points (Good)	1Points (No Effort)
Navigation Bar	All 4 links are present and styled M in a dark bar.	Missing 1-2 links or styling is inconsistent. No	No navigation bar present.
Image Formatting	Exactly 3 images are perfectly rounded with borders.	Images are present but not circular.	Images are missing.
Deployment & UX	The card is centered with a light shadow and balanced text.	Elements are present but alignment is off.	The layout is disorganized.
Saving Req.	Save correctly as Activity5_[YourLastName].html. or have your index when you upload it to github.	Saved as .html but the naming is wrong.	Wrong file format.
TOTAL			___ / 20 Points

VII.Reflection

In this section, you will write a brief reflection on your learning. Answer the following guide questions: 1.

Why is it important to use a consistent navigation bar across different pages of a website?

Consistent Navigation
Maintaining a uniform navigation bar across all pages ensures a seamless user experience by leveraging muscle memory, which reduces cognitive strain and allows visitors to explore your site intuitively without feeling lost.

2. How does the use of white space and a centered "card" layout affect the user's focus?

Utilizing generous white space combined with a centered "card" layout strips away visual distractions and creates a clear focal point, naturally directing the user's eye toward your most important content and calls-to-action.

- **HTML Links and Navigation.** For specific guidance on the `<a>` tag and `href` attribute as required by the activity prerequisites.
- **CSS Image Formatting.** Documentation on border-radius for creating the mandatory rounded image effects.

ANNEX A
Problem

Instructions: Create a landing page for "Jhazianne's Creatives" that features a professional header and a centralized content card.

Constraints:

- **Header:** Must contain the brand logo and name "Student's Lastname Name Creatives" in uppercase.
- **Navigation:** A dark navigation bar with "HOME", "ABOUT", "GALLERY", and "CONTACT" links.
- **Images:** Must include three (3) identical circular images of the creator, formatted with a gold/yellow border.
- **Content:** A main heading "EXPERIENCE THE CREATIVE," a tagline, and a brief description.
- **Button:** Include a "LEARN MORE" button at the bottom of the card.
- **Footer:** A black footer with the text "© 2026 Student's Lastname Name Creatives Creatives".

ANNEX B Procedure

Procedure:

Document Setup: Start with `<!DOCTYPE html>` and the `<html>` tag.

Head Section: Include a `<title>` tag with the text "Jhazianne's Creatives".

Header & Nav: Create a `<header>` for the brand name and a `<nav>` section for the four menu items.

Main Content Card: Use a `<div>` with a white background and rounded corners to hold the text and images.

Image Formatting: Use CSS (`border-radius: 50%`) to make the three images perfectly round.

Footer: Add the copyright information at the bottom of the page.

Saving: Format: Save as .html.

- **Naming Convention:** `Activity5_[YourLastName].html`. or have your index when you upload it to github.

Final Submission Format Reminder

As per the mandatory instructions in SIT-FO-045:

- Required Sections:
 1. **Activity Output** (Screenshot of the live site)
 2. **Activity Code** (The full HTML/CSS source)
 3. **Activity Reflection** (Answers to the guide questions)
